Announcement of the first webinar

The ELI Global Private Law Special Interest Group in Global Private Law is pleased to invite you to the first webinar of our Group:

The challenge of harmonising property law: The case of digital assets

Description

The Draft Common Frame of Reference, which was rejected at a political level but still has an impact on legal scholarship, might have provided a facilitative framework for digital assets. The presentation will focus on whether the DCFR would have fulfilled that promise and why it proves so difficult to unify or even only harmonise areas of property law.

Speaker

Prof. Sjef VAN ERP is co-founder and former (sole) Vice-President of the European Law Institute. He is currently head of the private law department at the University of Amsterdam and emeritus Professor at Maastricht University. He is President of the International Association of Legal Science and Vice-President of the International Institute for Justice Excellence.

Date

May 6th, 11:00 A.M. (GMT+2).

Registration

Attendance is free for all but requires registration. To register please visit the following Zoom form:

https://us06web.zoom.us/webinar/register/WN_yeZpFjgTRKaFeKkzhht_HQ

Organization

The webinar is organized by the ELI Global Private Law Special Interest Group in Global Private Law, which is chaired by Albert Ruda (Universitat de Girona, Spain) and Anne McNaughton (Australian National University, Canberra).

Data protection

The person responsible for the processing of personal data is the University of Girona (CIF Q6750002E), with address at Plaça Sant Domènec 3, 17004 Girona, tel. no. +34 972 41 80 00, email address secretari.general@udg.edu. Data are collected to provide access to the online session and may be transferred to the European Law Institute for the internal use of the institute.
