"Ukraine in the Context of Reforming  
the Legal System: Modern Realities  
and International Experience"

Dear colleagues! Dear friends!

In the conditions of global economic and political changes occurring in Ukraine, we aspire to achieve qualitative development in our relations with the international community in all spheres. In this context, we pay special attention to the development of mutually beneficial educational and scientific cooperation.

On April 19-20, 2024, the VIII International Scientific and Practical Conference "Ukraine in the Context of Reforming the Legal System: Modern Realities and International Experience" will take place at the Law Faculty of the West Ukrainian National University in Ternopil.

Participation in the International Conference is not only a means of academic exchange of thoughts and ideas, but also an important component of supporting Ukraine during the war. This partnership signifies the readiness of the international scientific community to support our country in difficult times. The participation of foreign partners in the conference confirms not only their interest in Ukraine's legal sphere but also deep concern about the situation in the country. Such support from international participants gives us additional moral strength and confidence in our efforts to resolve the conflict and restore peace.

The main goal of the conference is to activate international educational and scientific cooperation, exchange practical experience, and attract the attention of leading scientific and business circles to new perspectives emerging in the Ukrainian market of educational services. Participants will have the opportunity to discuss scientific achievements, new ideas, meet old friends, and establish new contacts with colleagues from different countries.

We invite you to visit Ukraine and to take part in the conference. We are confident that your presence at the International Scientific and Practical Conference will be a symbol of the international community's unity in supporting Ukraine on the path to peace and stability.

Sincerely,  
Conference Organizing Committee
